AUTO FIX DATA

autofixdata.com

Lovable.dev — Complete Frontend Build Prompt

One prompt · Full website · All pages · SEO-ready · Responsive · Conversion-optimised

Platform	Stack	Markets	Languages	Focus
Lovable.dev	React + Tailwind	8 markets	6 languages	SEO + UX

Reseller products	Target markets
ALLDATA · AutoData · Haynes Pro · Mitchell1 · Identifix	UK · US · FR · DE · ES · IT · PL · AR

HOW TO USE: This document contains ONE complete Lovable.dev prompt (Section 2). Copy the full prompt block into Lovable.dev. It generates the entire frontend: all pages, header, footer, responsive design, SEO metadata, and full content. No backend, no API, no admin needed.

Generated: 19 March 2026

SECTION 1 — STRATEGY & WHAT LOVABLE WILL BUILD

What Lovable.dev will generate for Auto Fix Data

1.1 The approach

Lovable.dev generates a complete React + Tailwind CSS frontend with no backend required. All content is hardcoded as static data — product descriptions, page content, SEO metadata, multilingual text — making it instantly deployable to any static host (Vercel, Netlify, GitHub Pages).

Since there is no admin panel or CMS, all content edits are done by re-prompting Lovable. This is actually faster than a CMS for a site of this size.

1.2 Pages that will be generated

#	Page	Route	Purpose
1	**Homepage**	`/`	Hero, products, features, testimonials, FAQ
2	**Products — all platforms**	`/products`	All 5 reseller products overview
3	**ALLDATA product page**	`/alldata`	Dedicated ALLDATA landing page
4	**AutoData product page**	`/autodata`	Dedicated AutoData landing page
5	**Haynes Pro product page**	`/haynes-pro`	Dedicated Haynes Pro landing page
6	**Mitchell1 product page**	`/mitchell1`	Dedicated Mitchell1 landing page
7	**Identifix product page**	`/identifix`	Dedicated Identifix landing page
8	**Pricing**	`/pricing`	3 subscription plans + comparison table
9	**Free Trial**	`/free-trial`	Conversion page — form (Formspree/Netlify)
10	**ALLDATA Alternative**	`/alldata-alternative`	SEO — 181K impressions target
11	**AutoData Alternative**	`/autodata-alternative`	SEO — 79K impressions target
12	**Mitchell1 Alternative**	`/mitchell1-alternative`	SEO — 40K impressions target
13	**Haynes Pro Alternative**	`/haynespro-alternative`	SEO — 25K impressions target
14	**Identifix Alternative**	`/identifix-alternative`	SEO — 15K impressions
15	**Repair Manuals hub**	`/repair-manuals`	OEM data overview + make grid
16	**Diagnostics & DTC**	`/diagnostics`	DTC code library overview
17	**Wiring Diagrams**	`/wiring-diagrams`	Wiring database overview
18	**About**	`/about`	Company story, markets, values
19	**Contact**	`/contact`	Contact form + office info
20	**Blog listing**	`/blog`	Article grid with category filters
21	**404 page**	`*`	Branded error page

1.3 SEO strategy baked into the prompt

- Every page has a unique title tag (55–60 chars) and meta description (148–155 chars)
- H1 on every page contains the primary keyword
- JSON-LD schema: Organization (homepage), FAQPage (alternative pages), Product (pricing)
- Open Graph meta tags for social sharing on all pages
- Hreflang tags for 7 markets (en, fr, de, es, it, pl, es-AR, x-default)
- Semantic HTML: <article>, <section>, <nav>, <main>, <aside> used correctly
- All images use descriptive alt text with keywords
- robots meta tag: index, follow on all public pages
- Canonical URLs on every page
- llms.txt file for AI search engines (ChatGPT, Perplexity, Google AI Overviews)

1.4 Design system baked into the prompt

Element	Value	Notes
Primary yellow	**#F5C400**	All CTA buttons, logo accent, hover highlights
Dark navy	**#0D1F30**	Hero bg, dark sections, footer
Darkest bg	**#060E1A**	Stats bar, makes bar
Professional blue	**#1A4A7A**	Links, section headings, accents
Body text	**#444444**	All paragraph text on white
Light bg	**#F5F5F5**	Alternating section backgrounds
Font	**Inter (Google Fonts)**	Weights 400, 500, 600, 700, 800
Code/DTC font	**JetBrains Mono**	DTC codes, URLs, technical strings
Border radius	**10px cards, 8px buttons**	6px badges/pills
Max content width	**1200px centred**	All sections max-w-[1200px] mx-auto
Mobile breakpoint	**768px**	All grids collapse to 1 column

SECTION 2 — THE COMPLETE LOVABLE.DEV PROMPT

THE PROMPT — Copy everything between the markers into Lovable.dev

INSTRUCTIONS: Open Lovable.dev → Start new project → paste the entire block below into the prompt field. The yellow markers show where to start and stop copying.

START COPYING HERE

CONTEXT & BRAND

```
Build the complete frontend website for Auto Fix Data (autofixdata.com).
Auto Fix Data is a professional automotive workshop repair data platform.
It resells 5 industry databases under one subscription:
  ALLDATA (by AutoZone), AutoData (by Solera), Haynes Pro (by Haynes Group),
  Mitchell1 (by Snap-on), Identifix (by Solera).
Target users: professional mechanics, independent garages, dealership technicians,
  fleet maintenance managers, diagnostic specialists.
Markets: UK, US, France, Germany, Spain, Italy, Poland, Argentina.
Tone: Professional, authoritative, efficiency-focused. Never consumer-casual.
Use correct automotive terminology throughout: OBD2, DTC, TSB, ECU, OEM,
  CAN bus, live data, freeze frame, torque spec, wiring harness, pinout.
```

TECH STACK

```
- React with TypeScript
- Tailwind CSS (use custom brand colours below via inline styles or config)
- React Router (all pages as separate routes)
- No backend, no API, no database, no admin panel
- All content is static / hardcoded in the components
- Contact form: use Formspree (action='https://formspree.io/f/YOUR_ID')
- Free trial form: same Formspree — just collect name, email, workshop, country
- Google Fonts: Inter (400,500,600,700,800) + JetBrains Mono (400,500)
  Add to index.html: <link
href='https://fonts.googleapis.com/css2?family=Inter:wght@400;500;600;700;800&family=JetBr
ains+Mono:wght@400;500&display=swap' rel='stylesheet'>
```

BRAND COLOUR SYSTEM

```
Define these as CSS variables in :root and use throughout:
--afd-yellow:  #F5C400   /* Primary CTA buttons — ALWAYS yellow */
--afd-navy:    #0D1F30   /* Hero bg, dark cards, footer */
--afd-dark:    #060E1A   /* Darkest backgrounds — stats bar, makes bar */
--afd-blue:    #1A4A7A   /* Links, accents, section headers */
--afd-text:    #444444   /* Body text on white */
--afd-light:   #F5F5F5   /* Alternating section backgrounds */
--afd-slate:   #94A3B8   /* Muted text on dark backgrounds */
--afd-border:  #1A3050   /* Card borders on dark backgrounds */
```

HEADER — STICKY, RESPONSIVE

```
Build a sticky header component used on ALL pages.
Background: white (#FFFFFF) with 1px bottom border #E5E7EB.
On dark hero sections: header becomes transparent — use scroll detection.
Max content width: 1200px centred. Height: 64px.
```

```
HEADER LAYOUT (left → centre → right):
```

```
LEFT: Logo
  <img src='/logo.png' alt='Auto Fix Data — Professional Workshop Database' height='44'>
  Wrapped in <a href='/'> — links to homepage
```

```
CENTRE: Navigation links (desktop only — hidden on mobile)
  Repair Data  →  /repair-manuals
  Products     →  /products      (dropdown: ALLDATA | AutoData | Haynes Pro | Mitchell1 |
Identifix | Compare all)
  Diagnostics  →  /diagnostics
  Wiring       →  /wiring-diagrams
  Pricing      →  /pricing
  Blog         →  /blog
  Font: 14px, font-weight 500, color #0D1F30
  Hover: color #1A4A7A, yellow #F5C400 underline animates in (2px)
  Active page: yellow underline permanent
```

```
RIGHT: Actions
  1. Language switcher: <select> showing current locale flag + code
     Options: 🇬🇧 EN | 🇫🇷 FR | 🇩🇪 DE | 🇪🇸 ES | 🇮🇹 IT | 🇵🇱 PL
     On change: navigate to /{locale}/equivalent page (static routing)
  2. 'Sign In' ghost button: border 1px #1A4A7A, text #1A4A7A, 8px 16px padding
     hover: bg-blue-50
  3. 'Start Free Trial' PRIMARY button:
     background: #F5C400, color: #000000, font-weight: 700
     padding: 10px 20px, border-radius: 8px, border: none
     hover: background: #E6B800
     Links to: /free-trial
```

```
SECONDARY BAR (below main header, desktop only):
  32px height, background #060E1A
  Content: 'MAKES:' label + horizontal list: BMW · Ford · VW · Toyota ·
  Mercedes · Vauxhall · Renault · Peugeot · Audi · Honda · + All 150 makes →
  Font: 11px, color #4A6A8A, hover: #F5C400
```

```
MOBILE HEADER (below 768px):
  Show logo + hamburger icon (3 lines, black) only
  Tapping hamburger: full-screen slide-in drawer from right
  Drawer: white bg, all nav links stacked 16px font
  Language switcher at top of drawer
  'Start Free Trial' yellow button FIXED at bottom of drawer
  X button top-right to close
```

FOOTER — FULL SPECIFICATION

```
PRE-FOOTER CTA STRIP (just above main footer):
  Full-width background: #F5C400 (yellow), padding: 40px 24px
  Centre-aligned:
  Heading: 'Start your free 7-day trial today'
    font-size: 28px, font-weight: 700, color: #000000
  Sub: 'Full platform access. No credit card. No commitment.'
    font-size: 14px, color: #333333, margin: 8px 0 20px
  Button: background #0D1F30, color white, font-bold, px-8 py-3 rounded-lg
    Text: 'Start Free Trial Now' — links to /free-trial
  Trust line: 'No credit card · No contract · Cancel anytime · 10,000+ workshops'
    font-size: 12px, color: #555555, margin-top: 10px
```

```
MAIN FOOTER:
  Background: #060E1A, padding: 48px 24px, border-top: 1px solid #0F2035
  Max-width: 1200px centred
  Grid: 5 columns on desktop, 2 on tablet, 1 on mobile
```

```
  Column 1 (wider — col-span-2 on desktop):
    Auto Fix Data logo (white version or text in white)
    Description (12px, color #64748B):
    'Auto Fix Data is the professional workshop repair database trusted by
    10,000+ garages worldwide. OEM-verified data for 150M+ vehicles across
    7 markets. Authorised reseller for ALLDATA, AutoData, Haynes Pro,
    Mitchell1 and Identifix.'
    Language flag pills below: 🇬🇧 EN · 🇫🇷 FR · 🇩🇪 DE · 🇪🇸 ES · 🇮🇹 IT · 🇵🇱 PL · 🇦🇷 AR
    Each pill: border 1px #1A3050, border-radius 8px, padding 2px 8px, 11px
    hover: border-color #F5C400, color #7EC8FF
```

```
  Column 2 — heading 'Product' (11px uppercase #94A3B8):
    Repair Data | Diagnostics & DTC | Wiring Diagrams | TSBs & Recalls
    Maintenance Schedules | Pricing | Free Trial
```

```
  Column 3 — heading 'Data Platforms':
    ALLDATA | AutoData | Haynes Pro | Mitchell1 | Identifix | Compare all
```

```
  Column 4 — heading 'Vehicle Makes':
    BMW | Ford | Volkswagen | Toyota | Mercedes | Vauxhall | + All makes →
```

```
  Column 5 — heading 'Company':
    About Us | Contact | Blog & Guides | DTC Code Library | Partner Programme
```

```
  All footer links: font-size 12px, color #4A6A8A, hover #7EC8FF, no underline
```

```

    Button: 'Contact for demo' — dark button /contact
  'See full pricing comparison →' link to /pricing below cards
```

```
SECTION 8 — FAQ (with FAQPage schema):
  Background white, padding 64px 24px
  Heading: 'Common questions' — centred, 30px bold
  5 accordion items (click to expand, smooth height animation):
  Style: border-b 1px #E5E7EB, padding 16px 0
  Question: font-size 15px, font-weight 600, color #0D1F30
  Answer: font-size 14px, color #64748B, line-height 1.7, padding-top 8px
```

```
  Q1: What vehicles does Auto Fix Data cover?
  A1: Auto Fix Data covers 150+ vehicle makes globally from 1990 to the current
    model year, including all major European, US and Asian manufacturers. BMW, Ford,
    Volkswagen Group, Toyota, Mercedes-Benz, Vauxhall, Renault, Peugeot and all
    mainstream makes are fully covered at OEM depth.
```

```
  Q2: Can I access ALLDATA and AutoData through one subscription?
  A2: Yes. Auto Fix Data is an authorised reseller for ALLDATA, AutoData, Haynes Pro,
    Mitchell1 and Identifix. Depending on your plan, you can access multiple databases
    under a single login — the only platform that offers this capability.
```

```
  Q3: Is the free trial fully unrestricted?
  A3: Yes. The 7-day free trial gives you complete, unrestricted access to the entire
    platform — every repair manual, wiring diagram, DTC code and TSB. No credit card
    is required to start your trial.
```

```
  Q4: Does Auto Fix Data work on mobile devices?
  A4: Yes. Auto Fix Data is fully browser-based and works on all modern devices —
    desktop, tablet and mobile. No app or software installation required.
```

```
  Q5: Is Auto Fix Data available in French, German, Spanish and Polish?
  A5: Yes. Auto Fix Data is fully localised for UK, US, France, Germany, Spain, Italy,
    Poland and Argentina with dedicated language versions and hreflang implementation.
```

```
  Add FAQPage JSON-LD schema with all 5 Q&A pairs.
```

```

```
3 PLAN CARDS (same style as homepage preview, full version):
  Full feature list with ✓ (green) and ✗ (red) for each feature:
  Features to compare: OEM repair manuals · Wiring diagrams · DTC library
    · TSBs & recalls · Maintenance schedules · AutoData access
    · ALLDATA access · Haynes Pro access · Mitchell1 access
    · Identifix access · Users · API access · Support level · Free trial
```

```
FEATURE COMPARISON TABLE (full — scrollable on mobile):
  10 rows x 4 columns (Feature | Individual | Garage | Fleet)
  Header row: bg #0D1F30, white text
  Garage column header: bg #1A4A7A (highlighted)
  ✓ = green bold, ✗ = red, Add-on = yellow
```

```
TRUST BADGES ROW: OEM Verified | GDPR Compliant | 99.9% Uptime | Cancel Anytime | 7-Day
Free Trial
  Each badge: border 1px #E5E7EB, rounded-lg, px-4 py-2, 12px, flex gap-2 items-center
```

```
FAQ SECTION: 5 questions specific to billing and cancellation
  Q: Can I cancel my subscription at any time?
  Q: Is the 7-day free trial a full-access trial?
  Q: What is included in the Garage plan vs Individual?
  Q: Does the Fleet plan include all 5 databases?
  Q: Are there discounts for annual billing?
  Add Product JSON-LD for each plan with Offer price.
```

PAGE 3: FREE TRIAL (/free-trial) — MINIMAL HEADER

```
SEO: title='Free 7-Day Trial — Full Workshop Repair Data | Auto Fix Data'
  description='Start your free 7-day Auto Fix Data trial. Full OEM repair data,
  wiring diagrams and DTC codes. No credit card required. Cancel anytime.'
```

```
IMPORTANT: This page uses a MINIMAL header — show logo only, NO navigation links.
```

```
This removes distractions and maximises conversion.
```

```
TWO-COLUMN LAYOUT (60% form / 40% benefits):
```

```
LEFT — SIGNUP FORM:
  Card: bg white, border 1px #E5E7EB, rounded-xl, p-8, shadow-sm
  Title: 'Create your free account' — 18px bold
  Form fields (each with label above, input below):
    Full name | Workshop email | Workshop name
    Country dropdown: United Kingdom | United States | France | Germany
      Spain | Italy | Poland | Argentina
    Password
  Input style: border 1px #D1D5DB, rounded-lg, px-3 py-2, 14px, focus:border-[#1A4A7A]
  Submit button: FULL WIDTH, bg #F5C400, color black, font-bold, py-3, rounded-lg
    Text: 'Start my free 7-day trial'
  Below button: 'No credit card · No contract · Cancel anytime' — 11px, gray, centred
  Form action: Formspree (placeholder action URL — user replaces with their Formspree ID)
```

```
RIGHT — BENEFITS:
  Title: 'What you get on day 1' — 16px bold
  Green checklist (7 items, ✓ in #1A5A3A):
    Complete OEM repair manuals — 150M+ vehicles
    Full wiring diagram database
    DTC fault code library — OBD2 + manufacturer specific
    TSBs and recall database — real-time updates
    Maintenance schedules — all makes from 1990
    AutoData technical specs access
    Technical support throughout your trial
  'What is NOT required' dark card (bg #0D1F30, rounded-lg, p-4, mt-4):
    No credit card · No contract · No sales call · No auto-renewal
  Testimonial: James H., Workshop Manager, Birmingham UK
    '7 days was all I needed to be convinced. The DTC library alone saved
    hours in the first week.'
  Trust badges: OEM Verified · GDPR Compliant · 99.9% Uptime
  Add HowTo JSON-LD schema: 7 steps to sign up
```

PAGES 4–8: COMPETITOR ALTERNATIVE PAGES

```
Build a reusable AlternativePage component used by all 5 pages.
Routes: /alldata-alternative | /autodata-alternative | /mitchell1-alternative
  | /haynespro-alternative | /identifix-alternative
```

```
SEO METADATA:
  ALLDATA:    title='Best ALLDATA Alternative for Professional Workshops | Auto Fix Data'
              desc='Searching for an ALLDATA alternative? Auto Fix Data delivers
OEM-verified
              repair data for 150M+ vehicles. Authorised ALLDATA reseller. Free trial.'
  AutoData:   title='Best AutoData Alternative for Workshop Technicians | Auto Fix Data'
              desc='Looking for an AutoData alternative? Auto Fix Data provides OEM repair
              data, wiring diagrams and DTC codes. AutoData reseller. Free trial.'
  Mitchell1:  title='Mitchell1 ProDemand Alternative — OEM Workshop Data | Auto Fix Data'
              desc='Mitchell1 ProDemand alternative with full OEM repair data. Auto Fix
Data
              is an authorised Mitchell1 reseller. Start free trial today.'
  Haynes Pro: title='Haynes Pro Alternative for Independent Garages | Auto Fix Data'
              desc='Best Haynes Pro alternative for UK workshops. OEM repair data, wiring
              diagrams and TSBs. Authorised Haynes Pro reseller. Free trial.'
  Identifix:  title='Identifix Alternative — Professional Workshop Database | Auto Fix
Data'
              desc='Identifix alternative with OEM-verified diagnostic data. Auto Fix Data
              is an authorised Identifix reseller. Start free trial.'
```

```
EACH ALTERNATIVE PAGE CONTAINS (in order):
1. PAGE HEADER (background #0D1F30, py-10):
   Breadcrumb: Home › [Competitor] Alternative — font-size 12px, color #64748B
   H1: 'The [Competitor] Alternative Built for Professional Workshops'
     font-size 36px, font-weight 700, color white
   Sub: '10,000+ workshops have switched. Same OEM data quality. Better European
     coverage. Clearer pricing.' — font-size 14px, color #94A3B8
```

```
2. RESELLER CALLOUT BOX (bg #0A2A4A, border 1px #1A4A7A, rounded-xl, p-4):
   flex between: text left + CTA button right
   Title: 'Auto Fix Data is an authorised [Competitor] reseller'
     color #4A9EFF, font-weight 700
   Sub: 'You can access [Competitor] directly through Auto Fix Data — or switch
     to our own OEM platform and save.' — 12px, color #64748B
   Button: 'Start 7-day free trial' → /free-trial — yellow primary
```

```
3. COMPARISON TABLE (full-width, scrollable on mobile):
   Header: Feature | Auto Fix Data | [Competitor]
   Auto Fix Data column header: bg #1A4A7A
   10 comparison rows:
     OEM repair procedures | European make depth | Free trial
     Pricing (garage plan) | Multi-device | Wiring diagrams
     TSBs | DTC codes | Access other platforms | UK/EU support
   Auto Fix Data cells: green ✓ bold or 'Full OEM' / 'Yes — 7 days'
   Competitor cells: yellow 'Limited' or red ✗ where weaker
```

```
4. PRICING COMPARISON (2-column flex card):
   Auto Fix Data prices vs competitor estimated prices
   Auto Fix Data card: highlighted with #1A5A8A border
```

```
5. HOW TO SWITCH (numbered guide):
   Title: 'How to switch from [Competitor] to Auto Fix Data'
   5 numbered steps (HowTo schema):
   1. Start your 7-day free trial — no credit card required
   2. Access the full platform and verify coverage for your key vehicle makes
   3. Run a parallel day — use Auto Fix Data alongside your current subscription
   4. Review any coverage queries with our support team (24-hour response)
   5. Choose your plan and cancel [Competitor] before your next billing date
```

```
6. FAQ SECTION (FAQPage schema — 5 Q&A per competitor):
   ALLDATA FAQ:
   Q: Is Auto Fix Data a direct ALLDATA replacement?
   A: Yes. Auto Fix Data provides full OEM repair data, wiring diagrams, DTC codes,
      TSBs and maintenance schedules — covering all core ALLDATA functionality with
      stronger European make coverage and more flexible pricing.
   Q: Can I still access ALLDATA through Auto Fix Data?
   A: Yes — Auto Fix Data is an authorised ALLDATA reseller. You can access ALLDATA's
      database directly through your Auto Fix Data Fleet plan subscription.
   Q: How long does it take to switch from ALLDATA?
   A: Most workshops complete onboarding in under two hours. The platform is
      browser-based — no installation required. Your team can be fully operational
      the same day you sign up.
   Q: Does Auto Fix Data have better European make coverage than ALLDATA?
   A: Yes. Auto Fix Data has deeper UK and European make coverage than ALLDATA,
      which is historically US-centric. All major European manufacturers are covered
      at full OEM depth.
   Q: Is there a free trial available?
   A: Yes. Auto Fix Data offers a 7-day free trial with full platform access —
      no credit card required. Verify coverage and test the platform before committing.
   (Create equivalent 5 Q&A for AutoData, Mitchell1, Haynes Pro, Identifix)
```

```
7. MID-PAGE CTA: 'Compare all plans and pricing →' → /pricing
8. END CTA (full-width yellow strip): 'Start Free 7-Day Trial' button → /free-trial
```

PAGE 9: ABOUT (/about)

```
SEO: title='About Auto Fix Data — Professional Workshop Data Platform'
  description='Auto Fix Data is the professional automotive workshop data platform
  trusted by 10,000+ garages. Authorised reseller for ALLDATA, AutoData, Haynes Pro,
  Mitchell1 and Identifix across 7 markets.'
```

```
SECTIONS:
1. MISSION (2-column grid):
   H1: 'About Auto Fix Data — Professional Workshop Data Platform'
   Left: 'Our mission' label + heading 'One platform for every workshop data need'
   Body: 'Auto Fix Data was built to solve a problem that every workshop manager
   knows: the best repair data is spread across multiple expensive platforms, each
   with its own login, billing cycle and interface. We negotiated direct reseller
   agreements with ALLDATA, AutoData, Haynes Pro, Mitchell1 and Identifix so you
   do not have to. One subscription. One login. One bill.'
   Right: Key facts card (table):
     Founded: 2022 | HQ: London, UK | Active workshops: 10,000+
     Markets: 7 (UK, US, FR, DE, ES, IT, PL, AR)
     Data platforms: 5 authorised reseller agreements
     Vehicle coverage: 150M+ vehicles, 1990-2026
```

```
2. MARKETS GRID (grid-cols-4, gap-4):
   8 market cards: 🇬🇧 UK | 🇺🇸 US | 🇩🇪 DE | 🇫🇷 FR | 🇪🇸 ES | 🇮🇹 IT | 🇵🇱 PL | 🇦🇷 AR

  Search bar (visual)
  4 quick link buttons: Home · Repair Data · DTC Codes · Free Trial
```

GLOBAL SEO REQUIREMENTS — apply to ALL pages

```
ADD TO EVERY PAGE <head>:
  <meta charset='UTF-8'>
  <meta name='viewport' content='width=device-width, initial-scale=1'>
  Unique <title> (55-60 chars) — see each page above
  Unique <meta name='description'> (148-155 chars) — see each page above
  <meta name='robots' content='index, follow'>
  <link rel='canonical' href='https://autofixdata.com/[page-url]'>
  Open Graph tags: og:title, og:description, og:url, og:type, og:image
  Twitter card: summary_large_image
```

```
HREFLANG (add to every page):
  <link rel='alternate' hreflang='en' href='https://autofixdata.com/[slug]'>
  <link rel='alternate' hreflang='fr' href='https://autofixdata.com/fr/[slug]'>
  <link rel='alternate' hreflang='de' href='https://autofixdata.com/de/[slug]'>
  <link rel='alternate' hreflang='es' href='https://autofixdata.com/es/[slug]'>
  <link rel='alternate' hreflang='it' href='https://autofixdata.com/it/[slug]'>
  <link rel='alternate' hreflang='pl' href='https://autofixdata.com/pl/[slug]'>
  <link rel='alternate' hreflang='es-AR' href='https://autofixdata.com/es/[slug]'>
  <link rel='alternate' hreflang='x-default' href='https://autofixdata.com/[slug]'>
```

```
JSON-LD SCHEMA (add to index.html or root App component):
  Organization schema on homepage
  FAQPage schema on all pages with FAQ sections
  HowTo schema on free trial page and alternative 'how to switch' sections
  Product schema on pricing page for each plan
  BreadcrumbList on all non-homepage pages
```

```
llms.txt file (create /public/llms.txt):
  # Auto Fix Data
  > Professional automotive workshop repair database for 150M+ vehicles
  > Authorised reseller: ALLDATA, AutoData, Haynes Pro, Mitchell1, Identifix
  > Markets: UK, US, France, Germany, Spain, Italy, Poland, Argentina
  > Free 7-day trial: https://autofixdata.com/free-trial
  > Contact: support@autofixdata.com
```

```
PERFORMANCE (essential for SEO):
  All images: use proper width and height attributes (prevents CLS)
  Use <img loading='lazy'> for below-fold images
```

```
  Use <img loading='eager' fetchpriority='high'> for hero/logo
  Fonts: preconnect to Google Fonts in <head>
  No unused CSS — use Tailwind purge
```

UX & CONVERSION REQUIREMENTS

```
EVERY PAGE must have a 'Start Free Trial' yellow CTA button visible without scrolling.
  On dark pages: yellow button in header
  On light pages: yellow button in hero + sticky header button
```

```
SCROLL BEHAVIOUR:
  Smooth scroll for anchor links
  Header becomes slightly translucent on scroll (backdrop-blur-sm)
  'Back to top' button appears after 400px scroll (bottom-right, yellow)
```

```
ANIMATIONS (subtle, professional — no bouncing or flashing):
  Hero text: fade-in-up on load (0.3s, translateY 20px → 0)
  Stat numbers: count-up animation when scrolled into view
  Cards: fade-in when scrolled into view (Intersection Observer)
  All transitions: 200ms ease
  Hover on cards: translateY(-2px) — subtle lift
```

```
RESPONSIVE BREAKPOINTS:
  Mobile (<768px): single column, larger touch targets, 16px min font
  Tablet (768–1024px): 2 columns where 3-column grids exist
  Desktop (>1024px): full layouts as specified
  All grids: use CSS Grid with responsive classes
  Horizontal padding: px-4 mobile, px-6 tablet, px-8 desktop
```

```
ACCESSIBILITY:
  All interactive elements have focus-visible ring: ring-2 ring-[#F5C400]
  All images have descriptive alt text
  Colour contrast: all text meets WCAG AA (4.5:1 minimum)
  Semantic HTML: <header>, <nav>, <main>, <section>, <article>, <footer>
  Skip to main content link at top of every page
```

STOP COPYING HERE

After pasting this prompt, Lovable will generate the full React app. Review the output, then use follow-up prompts in Section 3 to refine specific pages or sections.

SECTION 3 — FOLLOW-UP PROMPTS FOR REFINEMENT

Follow-up prompts — paste these one at a time into Lovable after the main prompt

These prompts refine specific parts of the site. Use them after the main prompt is generated. Each is self-contained — just describe what you want changed.

Follow-up 1 — If header needs fixing

COPY AND PASTE:

```
Fix the header: make it sticky (position fixed, full width, z-index 50).
The logo should be /logo.png at 44px height. Navigation links should be
Inter font, 14px, font-weight 500, color #0D1F30. Hover shows #F5C400
underline. 'Start Free Trial' button must be #F5C400 background, black text,
font-bold, no border. On mobile, show hamburger icon only.
```

Follow-up 2 — If pricing toggle is not working

```
Fix the pricing page billing toggle: clicking Monthly/Annual must update all
3 plan prices simultaneously. Monthly: £29 / £79 / £199. Annual: £23 / £63 / £159.
Show 'Save 20%' badge in green next to Annual. Use React useState for billingCycle.
```

Follow-up 3 — Add cookie consent banner (EU/UK legal requirement)

```
Add a GDPR cookie consent banner at the bottom of every page:
Background #0D1F30, full-width, fixed at bottom.
Text: 'We use cookies to improve your experience. By continuing to use Auto Fix Data,
you accept our cookie policy.'
Buttons: 'Accept All' (yellow #F5C400, black text) | 'Reject' (ghost button)
On click: hide banner, store preference in localStorage.
Do not show banner if preference already stored.
```

Follow-up 4 — Add language pages (Polish priority)

```
Create a Polish-language landing page at route /pl/autodata-logowanie.
This page targets the keyword 'autodata logowanie' (Polish search for AutoData login).
Title tag: 'AutoData Logowanie — Najlepsza Alternatywa | Auto Fix Data'
Meta: 'Szukasz alternatywy dla AutoData? Auto Fix Data zapewnia dane OEM dla
150M+ pojazdów. 7-dniowy bezpłatny okres próbny. Brak karty kredytowej.'
H1: 'AutoData Logowanie — Alternatywa dla Warsztatów Samochodowych'
Content: full Polish-language version of the AutoData alternative page.
All text in Polish. CTA button text: 'Rozpocznij bezpłatny okres próbny'
```

Follow-up 5 — Improve card hover effects and animations

```
Add these animations site-wide:
1. Hero section text: fade in upward on page load (opacity 0→1, translateY 24px→0, 400ms)
2. All cards: fade in when scrolled into view using Intersection Observer
   (opacity 0→1, translateY 16px→0, 300ms, staggered 50ms delay per card)
3. Stat counter: animate numbers counting up when stats bar enters viewport
   (count from 0 to final value over 1.5s with easeOut)
4. All card hover: transform translateY(-3px), transition 200ms ease
5. CTA buttons hover: brightness(110%), transition 200ms
```

Follow-up 6 — Add sitemap.xml and robots.txt

```
Create /public/sitemap.xml with all page URLs:
  Priority 1.0: / (homepage)
  Priority 0.9: /alldata-alternative, /autodata-alternative, /mitchell1-alternative,
    /haynespro-alternative, /identifix-alternative
  Priority 0.8: /products, /pricing, /free-trial, /repair-manuals, /diagnostics,
/wiring-diagrams
  Priority 0.7: /alldata, /autodata, /haynes-pro, /mitchell1, /identifix
  Priority 0.6: /about, /contact, /blog
  Lastmod: 2026-03-23, changefreq: monthly for static, weekly for homepage/blog
Create /public/robots.txt:
  User-agent: *
  Allow: /
  Sitemap: https://autofixdata.com/sitemap.xml
```

Follow-up 7 — Add back-to-top button and page loading indicator

```
Add a 'back to top' button:
  Appears when user has scrolled more than 400px
  Fixed position: bottom-6 right-6
  Style: bg #F5C400, rounded-full, w-10 h-10, flex items-center justify-center
  Icon: upward arrow (chevron-up)
  onClick: smooth scroll to top
  Fade in/out with opacity transition
```

Follow-up 8 — Make forms functional with Formspree

```
Update both forms (contact form and free trial form) to use Formspree:
  action='https://formspree.io/f/REPLACE_WITH_YOUR_FORMSPREE_ID'
  method='POST'
  On submit: show success message 'Thank you! We will be in touch within 24 hours.'
    in green success card (slide down animation)
  On error: show 'Something went wrong. Please email support@autofixdata.com'
    in red error card
  Show loading spinner on submit button while submitting
  Disable submit button while loading
```

Auto Fix Data — autofixdata.com — Lovable.dev Complete Frontend Prompt
